TREEN SPRING HYDROPATHIC INSTI-TUTE in Baltimere County, 14 miles on the Busquebanna Railroad, and 10 miles by the Reisters-town Turnjike from Baltimore. This institution will be opened on the 12th of August, for the recep-tion of Patients and under the hirection and charge of William lode, M. D., late of Washington city, pupil of the celebrated Priesnitz, founder of the sys-tem.

pupil of the celebrated Priesmitz, founder of the system.

The proprietors being convinced that an institution of this kind would be a blessing to the sick, and the invalids of our city and state, and those of our sister states, who would resort to this mode of cure have spared beither pains nor means to place this mettation on a footing with those of this country, after the plan of those in Germany. The house has been newly painted and formished with new furniture, and specially altered and arranged for comfort to the patients and for the utmost efficiency of the treatment. A new Bath-house has been added to the main house, containing all the necessary bath appearatus. A Douche house is building which will contain 4 douches, [2 for ladies and 2 for gentlemen] which will have a fall of from 12 to 18 feet, and in volume from 14 to 24 inches in diameter.

There are four large springs on the place at a temperature of 54° Farenheit, highly impregnated with carbonic gas in constant effervesence. The water is remarkably light and all the springs are shaded by large trees. Walks lead from one to the place is known as one of the healthiest and most delightful in Maryland.

The United States Reporter,

A DAILY JOURNAL

OF GOVERNMENT, LEGISLATIVE, AND GENERAL

NEWS.

THE SUBSCRIBER is now enabled to an
nounce the completion of his strangements for
the establishment of a well organized and independent Journal of News at the scat of the General Gevernment.

ent Journal of News at the season of the United States Reporter will be the following:

I. Early intelligence of the movements of the various Departments of the Government, in reference to domestic affairs and to the foreign relations of the country, will be given with ser upulous fidelity. Possessing peculiar facilities for obtaining information, the "Reporter" will be enabled frequently to communicate, exclusively, intelligence of the most important character.

i readers, will thus be kept fully and systematically informed of domestic legislation in all sections of the United States.

V. Early Intelligence of all important movements in the Legislatures of Great Britain and France, will be communicated by every steamer from Europe, through reporters in London and Paris, who possess peculiar facilities for obtaining information.

VI. The General News of the Day will be given in a condensed form, with industry and attention. Such is a britel view of what the "United States Reporter" is designed to be. All the plans and arrangements have been well matured, and the hope is confidently cherished, that the "United States Reporter" is designed to be. All the plans and arrangements have been well matured, and the hope is confidently cherished, that the "United States Reporter" will prove itself an energetic, industrious, dignifed and perfectly independent journal. It will have no party views—no political bias. The proprietor, by the terms of his contract with the Senate of the United States, is bound to the condition that the paper shall contain no political discussion except the debates." It will be a vehicle of news—n t the organ of any set of opiniona. The grand sim of the subscriber is pe establish at the seat of Government a faithful and prompt reporter of all sorts of other subscriber is pe establish agent, on which the politician, the business man, the manufacturer, the mechanic, and every one interested in the affairs of Congress and the Government, may refy at all times with implicit confidence.

It is believed that the establishment of such a reliable Journal of intelligence, on terms which places it within the reach of the great masses of the people, at the commencement of what promises to be a most interesting and eventual period in the history of Congressional proceedings, will be regarded with favor by all classes of community; and having the subscriber at lines and professional proceedings, will be regarded with favor by all classes of community; and having the

COLLETON BITTERS.

THESE Bitters are purely a vegetable compound, and are offered to the public from principle of benevolence, under the fullest conviction that they will be found a safe and sovereign cemedy for Dyspeptia. They have been triumphantly tested, not only by some of the most respectable families and physicians in the State of South Carolina, who have furnished ample testimony as to their decided excellence, but also by the proprietor, who, for ten years, suffered all the gloom incident to that stubborn and distressing disease. They possess the peculiar excellence, denied to most other Bitters, of not proving injurious by continued use. They contain not a single deleterious ingredient, and, as seen from the directions which accompany each bottle, may be given with entire safety to an infant in the month.

With pleasure, and for the benefit of mankind, I

send you a certificate relative to the Colleton Bitfers.

In the year 1838, when the cholers was in
Charleston, S. C., I was compelled to send a servant
to the city. On his return, he was suidenly attacked with most violent pain in his bowels, so much so
as to cause apprehension that he would expre in a
short time, if medical aid could not be procured. I
immediately resorted to the Colleton Bitters, by giving a wing class full at a dose. In the course of a
very short time it acted as an emetic, and throwing
him at the same time into a protuse perspiration. I
then continued to give it in small doses, from face to
there ten apponsfull, which resulted in a happy recovery. Since then I have been using it cohstantly
in my family, in cases of cholers morbus, cholers
infantum, diarrhous and general debility, and in
every instance found it highly beneficial. Some
constitutions, however, require much larger doses
than others.

JOS. D. JENKINS.

JOS. D. JENKINS. Bluffton, S. G., 1846.

Bluffian, S. G., 1845.

It is with feelings of gratitude as well as pleasure that I take this method of giving my testimony of the great estimation which I entertain for your invaluable compound. In justice not only to the medicine, but for the benefit of others who may be suffering from the same inality, Dyspepsia, with which I was for years afflicted, I feel it a duty incumbent on me to state that I am now restored to perfect health. When I commenced taking the Colleton Bittera it was as a last resort. My debuilty from indigestion was so great that a cure was looked upon as almost hopeless. After taking it requisity and perseveringly for some time, my strength and digestive powers were entirely restored. I have never taken a single dose of any other medicine for more than five years past. I can now eat the richest flood without any unpleasant feelings whatever. I have also used Colleton Bitters freely in my femily for cholera ta familum, cholera morbus, general debuity, and as a tonic after fever, with great success. As a family reedicine I deem it invaluable, and do conscientiously recommend it.

St. John's Collision. S. C., December, 1846.
